## A

### **Abbot Point coal terminal (Queensland)**

offsets policy and seagrass meadows, 34-46

### **Aboriginal heritage**

Cultural heritage legislation, New South Wales, 75-91

Ausgrid case, 79-85

bolstering protection, 85-87

legislative framework, 76-79

penalties comparative table, 88-91

cultural heritage legislation, Queensland

compliance, 329-351

Aboriginal Cultural Heritage Act and Torres Strait Island Cultural Heritage Act (2004 to present), 337-345

Aboriginal Relics Preservation Act (1967 to 1987), 333-336

Australian legislation, 330-331

Cultural Relics (Landscape Queensland and Queensland Estate) Act (1987 to 2004), 336-337

Queensland legislation, 332-333

prospects, 347-349

summary, 345-347

understanding compliance, 331-332

restorative justice intervention (New South Wales), 352-367

conferencing (O'Neill and Ausgrid), 353-361

National Parks and Wildlife Act

2010 amendments, 361-362

current review, 362-364

future of conferencing, 364-365

### **Adaptive management**

groundwater impacts of mining projects, 250-287

case studies (Australia), 260-280

legal framework, 280-287

theory to practice, 254-260

Kevin's Corner Project (Queensland), 249-250

substantive limits, 247-250

## B

### **Biobanking**

biodiversity offsets (Australia), 11-33, 137-147

arguments for and against, 24

decision-making, 11-13

evolution, 13-14

future directions and reform proposals, 31-32

local government approaches, 21-22

policy and legislative context, 17-20

**Biobanking** – *continued*

- biodiversity offsets (Australia) – *continued*
  - principles for applying, 14-16
  - review of key issues, 25-31
  - review of practice, 22-24
  - science behind, 16-17
- biodiversity offsets (New South Wales))
  - Land and Environment Court, 397-412
    - Bulga decision, 400-402
    - existing offsets policies and mechanisms, 407-412
    - merits appeal, 407-412
    - policy and legislative change post-Bulga, 402-406
    - role, 398-400
  - New South Wales government framework, 18-20

**Biodiversity**

- conservation
  - adaptation strategies, 114-136
    - basis for action, 116-118
    - intensiveness, 118-135
- offset schemes – *see* **Biobanking**

**C**

**Carbon pricing**

- renewable energy innovation, 368-384
  - lessons learnt, 381-383
- policies, 372-381
  - Australia, 379-381
  - Canada, 379-381
  - United Kingdom, 372-376

**Catchment management** – *see* **Integrated catchment management**

**Charities**

- environmental protection as charitable purpose, 415-438
  - Australia, 417-421
- charity law as tool, 416-417
- comparative analysis, 421-430
  - broad recognition outside Australia, 429-430
  - Canada, 427-429
  - England and Wales, 421-430
  - New Zealand, 425-429
- public benefit, 430-437

**Coal seam gas**

- regulatory reform, 64-71
  - domestic energy source, 65
  - ecologically sustainable development, 65
  - land-use conflict, 65

**Coal seam gas – continued**regulatory reform – *continued*

New South Wales government response to community concerns, 69-71

New South Wales reforms, 66-69

**Coastal policies**

precautionary principle, 290-292

**Conferencing – see Aboriginal heritage****Costs**protective orders – *see* **Protective costs orders****D****Development**fast-tracking – *see* **Planning (New South Wales)****Dispute resolution**

facilitative (State Administrative Tribunal of Western Australia)

marginal gains, 300-310

managing complex environmental cases, 304-309

**E****Electronic and electrical waste (e-waste)**

disposal, 223-235

disposal hazards, 224

international conventions, 225-226

product stewardship, 226-228

Australian legislation, 231-233

international approaches, 228-231

international comparisons, 233-234

**Emissions trading**

European Union

emissions trading scheme (ETS)

2030 policy framework, 239-241

analysis of reform proposals, 241-242

auctioning and free allocation, 237-239

structural reform, 236-243

**Environment Protection and Biodiversity Conservation Act 1999 (Cth)**

offsets policy

marine ecosystems, 34-46

rationale for using to achieve conservation goals, 37-38

seagrass ecosystems, 41-44

one stop shop for environmental approvals, 164-191

approval process timelines, 190-191

critical evaluation, 176-189

**Environment Protection and Biodiversity Conservation Act 1999 (Cth) – continued**

one stop shop for environmental approvals – *continued*

legislative context, 167-170

policy, 173-176

recent pushes for and against approval bilaterals, 170-173

Environmental approvalsone stop shop – *see* **Environment Protection and Biodiversity Conservation Act 1999 (Cth)**

**E-waste** – *see* **Electronic and electrical waste**

**F**

**Facilitative dispute resolution** – *see* **Dispute resolution**

**Fast-tracking development** – *see* **Planning (New South Wales)**

**G**

**Groundwater** – *see* **Integrated catchment management; Water resources**

**I**

**Indigenous heritage** – *see* **Aboriginal heritage**

**Integrated catchment management**

Victoria

legislative and governance frameworks, 385-396

analysis, 394-396

land-use planning system, 388-389

North Central Catchment Management Authority, 389-394

**L**

**Land and Environment Court (New South Wales)**

biodiversity offsets – *see* **Biobanking**

protective costs orders, 450-454

**M**

**Marine environments**

offsets policy, 34-46

**Mining industry adaptive management** – *see* **Adaptive management**

## N

### **Natural resources**

- governance, 311-326
  - general risks of scientific hegemony, 317-319
  - hubris, 311-312
  - limited ability of Water Act to accommodate future conflict, 324-325
  - managing risk of hubris, 325-326
  - particular risks of reliance on models, 319-322
  - treatment of “the other”, 322-324
  - water governance, 312-317
- management
  - adaptive management – *see* **Adaptive management**

## O

**Offset proposals** – *see* **Biobanking; Environment Protection and Biodiversity Conservation Act 1999 (Cth)**

**One stop shop** – *see* **Environment Protection and Biodiversity Conservation Act 1999 (Cth)**

## P

### **Planning (New South Wales)**

- statutory systems
  - fast-tracking development, 439-449
  - context to reform in Australia, 440-441
  - development assessment, 441-449

### **Precautionary principle**

- operationalising, 288-299
  - coastal policies, 290-292
  - Temwood Holdings Pty Ltd, 292-295

**Product stewardship** – *see* **Electronic and electrical waste**

### **Protective costs orders**

- increasing access to courts by capping costs, 450-458
  - Federal Circuit Court, 456
  - Federal Court, 454-456
  - New South Wales (Delta case), 450-453
    - further Land and Environment Court cases, 453-454
    - Law Reform Commission consideration, 454
  - Northern Territory, 457
  - Victoria, 456-457
  - Western Australia, 457

**Public interest environmental law**

- natural resources management, 151-163
  - Commonwealth legislation regulating offshore activities, 155-158
  - contemporary judicial analysis, 154-155
  - historical judicial analyses, 152-154
  - Queensland legislation governing onshore subsurface resources, 158-160
  - Queensland legislation governing onshore surface resources, 160-163

**Public participation** – *see* **Strategic Litigation Against Public Participation (SLAPP)**

**R**

**Ramsar Convention (Convention on Wetlands of International Importance Especially as Waterfowl Habitat, 1971)**

- implications for environmental conservation, 4-5

**Restorative justice conferencing** – *see* **Aboriginal heritage**

**S**

**Seagrass meadows**

- EPBC Act offset policy, 34-46
  - ecological challenges, 39-40
  - importance of ecosystem conservation, 35-37

**Statute law**

- planning systems – *see* **Planning**

**Strategic Litigation Against Public Participation (SLAPP)**

- environmental issues, 47-63
  - case studies, 56-59
    - Australia, 56-57
    - Canada, 57-58
    - Japan, 59
    - Kazakhstan, 58
    - Russia, 58
  - definition of SLAPP suits, 48-49
  - democratic freedoms, 51-54
  - effects, 54-56
  - public authorities' use, 51
  - responses, 59-63
    - anti-SLAPP legislation, 60-61
    - Constitutional protection, 61-62
    - court rules, 62-63
    - SLAPP-back litigation, 59-60
  - targets, 49-51

## T

### **Third party appeal rights, 210-222**

environmental protection, 220-222

public participation, 211-216

Resource Management and Planning Appeal Tribunal (Tasmania), 216-220

## W

### **Water resources – see also Integrated catchment management; Wetlands**

adaptive management – see **Adaptive management**

governance, 312-317

limited ability of Water Act to accommodate future conflict, 324-325

groundwater-use efficiency, 92-113

accounting and anti-speculation, 103-113

case studies, 100-103

legal basis, 83-100

### **Western Australia**

State Administrative Tribunal – see **Dispute resolution**

### **Wetlands**

environmental conservation laws, 3-10

Forrestdale and Thomsons Lakes (Western Australia), 5-7

Ramsar Convention implications, 4-5

### **Whaling**

Japanese whaling case

ICJ decision, 459-469

Australian Whale Sanctuary, 460-461

foreign whaling vessels in Australian metropolitan maritime zones, 464-468

Law of the Sea framework, 461-462

whaling in AWS adjacent to Australian Antarctic Territory, 462-464

### **World Heritage List**

Australian properties on, 192-209

Great Barrier Reef, 200-206

List of World Heritage in Danger, 196-198

Macquarie Island, 198-200

Tasmanian Wilderness, 207-208
