
Index

Administrative tribunals

- decision-making
 - sterilisation of intellectually disabled minors, 299–305

Advance directives (Living wills)

- incompetent adults, 410–414

Adverse events

- duty to disclose to patients, 501–527
- reporting, 20–23

Alternative medicine – see Complementary medicine

Autopsies – see also Coroners

- objections to, 463–468

Biomedical research

- access to tangible research materials, 86–101
 - Australian developments, 92–94
 - commercial value, 87–89
 - Monash survey (2005), 94–100
 - United States development, 89–92

Cannabis

- medical use
 - rural doctors' attitudes, 135–142

Child protection authorities

- immunity, 443–448

Children (minors) – see also Wrongful life

- best interests, 256–257
- competency, 64–85, 331–332
- consent to medical treatment, 64–85
- life-sustaining medical treatment
 - legal and ethical issues, 244–261
- sterilisation of intellectually disabled, 299–305

Clinical practice guidelines

- expert evidence, 479–500
- withdrawing or withholding treatment, 246–249

Codes of practice

- duty to disclose adverse events to patients, 20–23, 501–527

Competency

- children, 64–85, 331–332
- end-of-life decisions, 403–424
- history and importance, 65–68
- testamentary capacity – *see* **Wills**

Complaints – see Health Care Complaints Commissions

Complementary medicine

- court and tribunal evidence, 425–432

Consent – see also Informed consent

- in vitro fertilisation providers, 319–325

Coroners – see also Autopsies

- book review, 282–288
- internal autopsies, 199–208
 - Queensland, 204–206
- law and procedure (ACT), 169–176
- law reform (Vic), 151–155
- quality of autopsy reports (UK), 315–318
- review of patient safety in hospitals, 236–237

Corporations

- vicarious liability, 24–26

Criminal liability

- corporations, 24–26

Disability

- intellectual – *see* **Intellectual disability**

Disciplinary hearings

- expert witness immunity, 306–314
- informal hearing decisions, 478
- sanctions, 176–181
- unprofessional conduct investigations
 - access to medical records, 15–19

Discrimination – see Genetic discrimination

Doctor-patient relationship

- duty to disclose adverse events to patients, 501–527
- medical self-determination, 403–424

Doctors – see Medical practitioners

Drugs, therapeutic – see also Cannabis

- antenatal corticosteroids in obstetrics, 220–227

- rural doctors' attitudes to medical use of cannabis, 135–142
- End-of-life decisions – *see also* Palliative care; Withdrawal of life support**
 - advance directives – *see* **Advance directives**
 - capacity and medical self-determination, 403–424
 - children, 244–261
- Ethics**
 - health law, 597–600
- Euthanasia – *see* Palliative care; Withdrawal of life support**
- Evidence-based medical practice**
 - standard of care, 220–229
 - use of antenatal corticosteroids in obstetrics, 220–229
- Expert evidence**
 - clinical practice guidelines, 479–500
 - complementary and mainstream medicine, 425–432
 - immunity of medical experts from disciplinary regulation, 306–314
- Forensic pathology**
 - book review, 143–144
- General practitioners – *see* Medical practitioners**
- Genetic discrimination**
 - life insurance tests, 367–396
- Genetic information**
 - disclosure to reproductive partners of patients, 262–281
 - Australian regulation, 268–273
 - law reform, 273–280
- Genetic technology – *see also* Patents**
 - pre-implantation genetic diagnosis, 551–565
 - reproductive decision-making, 127–134
- Health Care Complaints Commissions**
 - patient safety in hospitals, 237–238
- Health insurance – *see* Medicare**
- Health law**
 - disputes and dilemmas
 - book review, 600–602
 - ethics, 597–600
 - human rights and – *see* **Human rights**
- Health professionals – *see also* Complementary medicine; Medical practitioners; Pharmacists**
 - disclosure of patients' genetic information to reproductive partners, 262–281
 - regulation
 - book review, 602–605
- Hospitals**
 - patient safety
 - regulatory regimes, 228–243
- Human embryo research**
 - Legislation Review Committee (Lockhart Review)
 - evidence and recommendations, 27–44
 - prohibition on human cloning, 477
 - public policy debates on stem cell research, 575–582

 - health law and, 7–14
 - Australian Capital Territory, 9–10
 - Victoria, 11–13
- Human tissue**
 - collections
 - tumour banks in Australia, 102–109
 - regenerative
 - commercialisation of therapeutic products, 339–359
 - transplants – *see also* **Organ donation**
 - law reform, 167–168
- In vitro fertilisation**
 - consent of providers, 319–325
- Informed consent – *see also* Consent**
 - competency of children, 64–85, 331–332
 - form design, 326–338
 - human tissue donors, 346–347, 350–353
 - surrogate or substituted judgment, 332–334, 449–462
- Insurance – *see* Life insurance**

Intellectual disability

sterilisation of minors, 299–305

Life, wrongful – see Wrongful life**Life insurance**

genetic discrimination, 367–396

Life support, withdrawal of – see Withdrawal of life support**Medical negligence – see Standard of care; Tort law; Wrongful life****Medical practitioners – see also Doctor–patient relationship; Professional Services Review Scheme**adverse events – *see* **Adverse events**codes of conduct – *see* **Codes of practice**disciplinary hearings – *see* **Disciplinary hearings**

fitness to practise, 176–181

medically unjustified opinions, 176–181

peer review

statistical sampling, 209–219

rural

attitudes to medical use of cannabis, 135–142

Medical records

access by courts and tribunals, 15–19

Medicare

peer review

statistical sampling, 209–219

Mental health

criminal law (NSW)

book review, 288–290

Mental illness

competence of young people with, 80–84

Minors – see Children**Negligence, medical – see Medical negligence****Obstetric practice**

use of antenatal corticosteroids, 220–227

Organ donation – see also Human tissue

personal beliefs, 362–363

public education, 360–366

Paediatrics – see Children**Palliative care – see also End-of-life decisions**advance directives – *see* **Advance directives**

nutrition and hydration, 182–198

Patents

genetic inventions

diagnostic patents for breast cancer, 120–123

disclosure, 110–126

extending claims to chemical analogues, 123–126

limiting scope of claims, 117–118

pharmaceutical

broadened springboarding exemption, 477–478

Patients – see Doctor–patient relationship**Peer standards – see Professional Services Review Scheme****Persistent vegetative state – see Withdrawal of life support****Pharmacists**

legal liability, 397–402

Australian civil litigation, 401–402

international case law, 399–401

professional misconduct, 402

professional standards and guidelines, 398

Pregnancy

sport and, 45–63

Pregnancy, wrongful – see Wrongful life**Professional misconduct – see Disciplinary hearings****Professional Services Review Scheme**

statistical sampling, 209–219

Public interest

access to medical records by courts and tribunals, 15–19

Reproduction

- disclosure of patients' genetic information to partners, 262–281
- Australian regulation, 268–273
- law reform, 273–280

Reproductive technology

- decision-making, 127–134
- book review, 433–436

Research – see Biomedical research; Human embryo research

Right to die – see End-of-life decisions; Withdrawal of life support

Rural doctors – see Medical practitioners

Sport

- pregnancy and, 45–63

Standard of care

- antenatal corticosteroids in obstetrics, 220–227

Statutory interpretation

- human rights and, 7–14

Stem cell research – see Human embryo research

Sterilisation

- intellectually disabled minors, 299–305

Substituted judgment – see Consent

Surrogate judgment – see Consent

Testamentary capacity – see Wills

Therapeutic jurisprudence

- unintended impact, 566–574

Tissue, human – see Human tissue

Tort law

- pregnancy in sport, 60–62

Transplants – see Human tissue; Organ donation

Tribunals, administrative – see Administrative tribunals

Tumour banks – see Human tissue

Unborn children

- potential tortious obligations in relation to sporting injuries, 51–60

Vicarious liability

- criminal liability of corporations, 24–26

Wills

- testamentary capacity, 156–166
- emotional capacity, 165–166
- moral duties, 163–165
