### Environmental Regulation of Mining

The *Mining Management Act 2001* and *Mining Management Regulations 2001* were repealed on 1 July 2024 by the *Environment Protection Legislation Amendment Act 2023*. Transitional arrangements in the Amendment Act ensure authorised mining activities under the Mining Management Act will continue under the Amendment Act, which introduces a new environmental (mining) licence framework (framework) for managing environmental impacts of mining. The transitional arrangements apply from 1 July 2024 to 30 June 2028.
